

Episode 56FE June 14, 2023. Vending Machines for PM2.5 monitors

- 1) First Fact of a Real Memo: Funding is being given to print materials to educate people on the use of the supplies being dispensed through a public health vending machine, and to promote the location of a public health vending machine.
- 2) Second Fact of a Real Memo: Public Health Vending Machines to distribute Naloxone and Fentanyl test strips will be funded if a successful grant is written to the Department of Health Services (DHS) of the U S Federal Government. These vending machines would make these lifesaving materials available to the general public to use to save people from drug overdose deaths.
- 3) First on the Wish List of Residents Against Wood Smoke Emission Particulates: Public Health Vending Machines to distribute PurpleAir PM2.5 monitors to be funded if a successful grant is written to the Department of Health Services (DHS) of the U S Federal Government. These vending machines would make these lifesaving materials available to the general public to use to save near neighbors of indoor residential wood burners from PM2.5, particulate matter of 2.5 micrometer size, the perfect size to infiltrate the human lung, setting off a cascade of human health problems and early deaths.
- 4) Second on the Wish List of Residents Against Wood Smoke Emission Particulates: Public Health Vending Machines to distribute Heat Pumps in exchange for Indoor Residential Wood Stoves to be funded if a successful grant is written to the Department of Health Services (DHS) of the U S Federal Government. These vending machines would make these lifesaving materials available to the general public to use to save near neighbors of indoor residential wood burners from PM2.5, particulate matter of 2.5 micrometer size, the perfect size to infiltrate the human lung, setting off a cascade of human health problems and early deaths.
