

Heat Pump that works at 40 degrees Fahrenheit below zero!

I'd rather date you, Mr. Goodman, and your Goodman Heat Pump with 450 times LESS PM2.5!

Goodman
18,000 BTU ...

Goodman!

I'd rather be a near neighbor of a heating device like a Heat Pump that has near zero emissions, or a natural gas furnace that emits 450 to 465 times less particulates than any wood burning device (including Ecodesign Wood Stove or a U S Certified Wood Stove or a Caveman's fire)!

Pleasant Hearth
Medium 1,800 sq. ft. 2020
EPA Certified Wood Burning
