Prayers for all those suffering from these horrid wildfires. 🙏 This is what climate change does to humans. Mother Earth will pay us back for all the damages humans have done because of greed for money. Our children's future is going up in smoke. But still, people are using our air shed as a sewer for smoke from wood stoves, debris burning, agricultural burning, garbage burning incinerators, biomass burning, oil refinery flaring, methane emissions and more. Global emissions trajectory keeps going up and up. Clean air, human safety and our homes are the sacrifice for ignorances.
