Break Big Biomass - A National Call To Action

Join us for an urgent and transformative online rally and national call to action. Discover the truth about industrial biomass energy.

By Break Big Biomass Coalition

Location

Online

Agenda

Biomass Basics

We'll explain what large-scale biomass energy is. Who the key players are. We'll share our urgent call to action.

Community Concerns

Hear directly from frontline voices. Our panel will include community members from Alabama, Georgia, Mississippi, North Carolina, and California.

Pollution and Public Health

Meet Dr. Erika Walker. The lead researcher from Brown University studying the health impacts of biomass pollution. Joining her will be Heather Hililaker from Southern Environmental Law Center (SELC)....

Take Action

We'll give you clear guidance and important actions. This is your chance to help break big biomass.

About this event

Event lasts 1 hour 30 minutes

Burning forests as fuel in power plants is not a climate solution. Learn about the forest, community health, and pollution hazards of biomass. All happening under the guise of clean energy. Take action to break big biomass.

April 7th - World Health Day

Check out the full 1.5 hour agenda for details
