

Episode 57DFRA March 23 2025 Talk Show Disconsin Dee Lon Dusk Door Knocking Petition Simulation

Larry the Litigator Hello RAWSEP Audience! I see you are wearing your Residents Against Wood Smoke Emission Particulates trademark but not officially trademark Ski Goggles to protect your eyes against PM2.5 from indoor wood burning neighbors! Why are they not trademark ski goggles RAWSEP Audience?

RAWSEP Audience Well as you know Larry the Litigator ANYONE can be exposed to PM2.5 from indoor residential wood burning and ANYONE can buy cheap but sort of effective FOR THEIR EYES ONLY ski goggles to protect their eyes from PM2.5 particulate matter of 2.5 micrometer size the perfect size to infiltrate the human lung setting off a cascade of human health problems and early deaths! We are not selling ski goggles here because we are not trying to make a buck! We as RAWSEP are simply trying to inform the public in a Public Health kind of way! Did you get that reference to the 1981 FOR YOUR EYES ONLY movie as if RAWSEP members are kind of like a hero like Tond Hanes Tond Tond Hanes Tond

Larry the Litigator With your eyes under the ski goggles sort of darkly obscured In a sort of Day of the Dead makeup kind of way? With your eyes sort of darkly obscured for photographs in a sort of Alice Cooper smeared eye shadow kind of way? Sort of like a Raccoon mask? Or are your ordinary eyes just covered with RAWSEP ski goggles?

RAWSEP Audience We sort of think we look dashing in Ski Goggles like we are ready to schuss down a mountain at any minute! Like we are spending the day in a Swiss Chalet which NEVER allows fireplaces or wood stoves but instead we are spending the day in a Swiss Chalet that is heated exclusively but cheaply cheaply because of Heat Pump rebates available in many states of up to \$8000 based on a sliding income scale by a clean energy Heat Pump that works down to 40 degrees below zero and doubles as an air conditioner and lowers monthly electricity heating bills immediately! The air is clean and the men are lean like Jean Claude Killy who won 3 gold medals in the Olympics for skiing in 1968! A real fact brought to you by RAWSEP The face of French alpine skiing Jean Claude Killy burst onto the international Olympic scene in style to win three golds at Grenoble France 1968 In Disconsin maybe to commemorate Grenoble 1968 or maybe just randomly a venue for outdoor rock concerts in Disconsin is named Grenoble Valley!

Larry the Litigator Outright disinformation from the RAWSEP Audience There is no connection between Grenoble Valley Disconsin and Grenoble France Oh maybe But that misinformation is what makes my seemingly random RAWSEP Audience so charming! Say la vee But we will stay on message for the rest of the show rest assured larger internet audience! Welcome to my Swiss Chalet simulation TV Studio RAWSEP Audience! No pesky indoor residential wood burning to sicken you and shorten your life here!

RAWSEP Audience You do not know how relieved we are Larry the Litigator! Also here in the Studio there are no door knockers from that harbinger of doom Dee Lon Dusk representing the S Word who is running as a Neo Nazi Supreme Court Justice in our fair state of Disconsin!

Larry the Litigator So this special RAWSEP audience is exclusively from the fair state of Disconsin?

RAWSEP Audience We are Dadgers from Disconsin! That means our state mascot recognizes the Dads of Disconsin every time we sing our fight song for our Dadgers athletic teams! We give equal time to Dads along with Moms here in Disconsin!

Larry the Litigator What if women want to pursue their ambitions to say be President of the United States rather than have the dozen children that is now required by law under the new presidential administration? The new but old president promised that children would be CHEAPER BY THE DOZEN within the first 24 hours of his administration!

RAWSEP Audience The four percent supporting the Republican Project 2025 put paid to that presidential ambition to lower costs for average Americans Republicans also portray as an evil delusion the fact that all women wish to be the United States president That ambition held by all potential Disconsin Moms died last November! However RAWSEP members are among the 96 percent of Disconsinites who would NOT vote for the far right Neo Nazi Project 2025 platform if we only knew what the platform contained!

Larry the Litigator Well here I am to educate Disconsinites to what Dee Lon Dusk door knockers in support of the S Word potential Disconsin Supreme Court Justice stand for!

RAWSEP Audience Can we just tell the Dee Lon Dusk door knockers to go away? Can we just slam the door on them?

Larry the Litigator You are asking me that question because you are too polite and Midwest nice to shut your door on them when you see them coming Like Halloween when you are out of candy just turn off your lights and sit motionless in an easy chair until they are done papering your trees with the toe rags they call Project 2025 leaflets

RAWSEP Audience Now the Dee Lon Dusk door knockers for S Word are coming with one hundred dollar bills they say they will give Dump and Dusk and S Word supporters if they sign a petition and give Dee Lon Dusk Door Knockers our complete names street addresses phone numbers email addresses and social security numbers and our undying loyalty to our old but new president who is taking our country into a Recession! They want us to fight fight fight for a Recession like there is no tomorrow! Stock Market Stock Market Down Down Down! Living in Disconsin in March 2025 is like attending a ludicrously expensive losing sports event for clumsy inept billionaires on every street corner with hats and tshirts and coolers of beer and that Parade Float of the fat but thankfully diapered baby Dump! Among the uninitiated it is nauseating especially the Halloween Themed TV commercials which assure us every 30 seconds that another child sex predator has been released across the street! And there is proof in those ads that judges from both the right and from the left make decisions in courtrooms every day about sentences for child sex predators every even if anyone who only looks like a child sex predator could be executed by mobs more efficiently! Bring back mob rule! Bring back mob rule! Forget that Republicans want to get rid of Social Security to fund tax breaks for the rich! Gee that is not very catchy! I know Fight fight fight! Fight to bring us higher egg prices! By a tiny margin voters did something deeply wrong and we got this defective president! Let us double down on the idiocy in March 2025 in Disconsin!

Larry the Litigator Now you are showing your bias RAWSEP audience You are not in lockstep with the Dee Lon Dusk door knockers They will remember and they will have your personal information Be careful be very careful Your personal information should be FOR YOUR EYES ONLY

RAWSEP Audience We will shut the door Shut the door Shut the door Shut the door Slam it Slam it

Larry the Litigator Disconsinites can you stop watching TV until the election is over and start again on April second?

RAWSEP Audience We will bend our TV antennas into pretzels

Larry the Litigator How about the internet ads from Dee Lon Dusk? How about streaming TV?

RAWSEP Audience We in Disconsin are often rural voters who do not have reliable internet. The problem of lack of internet for rural voters is a boon for peace of mind except the Dee Lon Dusk door knockers are targeting rural voters. Rural voters have a reputation among Republicans for being gullible although rural voters are proud of their independence and so smart about money they will take \$100 to betray any values they have. They know the value of a dollar. You get \$100 from Dee Lon Dusk for your vote for S word for Disconsin Supreme Court Justice and you lose \$3000 a year from the Dump policy of inflation plus recession for four more years. Four more years! It is like going to a pep rally and losing your shirt and your money and your ability to think for yourself. It is like getting drunk on Disconsin beer. Beer Beer Beer.

Larry the Litigator Okay TMI too much information as the kids say on the internet about how rural voters who have little access to information according to you sophisticated urban RAWSEP audience. What do you know? You are urban elite from Dadison!

RAWSEP Audience How can we be urban elite if our most sophisticated city is called Dadison! The men here wear baggy high water Dad Pants cinched around their waists just because their city is called Dadison! What an urban nightmare! Urban blight! Dress like Jean Claude Killy with a cravat around your neck at least!

Larry the Litigator You are showing your urban bias RAWSEP Audience. You are so sophisticated it is hurting our demographics. Rural voters are registering their displeasure in comments on our live feed.

RAWSEP Audience Maybe rural internet is alive and well. Oh yeah I just checked my cell phone and I see the bro shows are calling the female members of RAWSEP names and denying climate change is real and coughing up a storm around unnecessary and polluting indoor residential wood burning fires. And also referring rural voters to websites where they can cash in on that \$100 to sign a petition and give out their personal information FOREVER to Dee Lon Dusk. And contributing to inflaming inflation and starting a recession for 4 more years!

Larry the Litigator By using the words bro shows are you being sexist?

RAWSEP Audience Strangely enough women also watch bro shows and call themselves bros. You know how women will call other women guys? It is a sign of respect to call a woman a bro because you know even if men are NOT earning the respect they crave and need to thrive on with merit from pursuing goals that benefit society like becoming a doctor or scientist or journalist who doles out the truth every day of their sometimes low income sometimes middle income and often time high income lives guys are depressed because they are not constantly perceived as smart and successful. Men or what we could call super bros are paid more than women but they do not have that feeling of success if they are not given the special treatment men received in the 1950s when men had tradwives. This is a fact.

Larry the Litigator RAWSEP Audience you are overreaching It is not a fact that all men are creeps Men redeem themselves every day in Disconsin in March 2025 by voting early and voting for Zuzan Zawford!

RAWSEP Audience Zuzan Zawford! Swoon! Larry the Litigator That is so biased RAWSEP Audience!

RAWSEP Audience Catch me I am swooning! What is not to like? Zuzan Zawford! Larry the Litigator There you have it Internet Audience My RAWSEP Audience is ga ga for Lady Za Za or should I say for Lady Zu Za! We need to provide equal time for the S Word who is her competitor! Stat!

RAWSEP Audience This is from actual statistics and is equal time for the S Word The S Word supports Neo Nazism from the federal government on down The S Word supports an 1849 law that outlaws abortion even in cases of rape and incest The S Word most importantly for us supports the Republican presidential policies leading to rising inflation and a recession which in simple terms means we will all pay \$3000 per year more for goods and services than we did last year \$3000 more per year!

Larry the Litigator And people may have their Social Security checks delayed! RAWSEP Audience And Dee Lon Dusk wants to find out everyones Social Security numbers

Larry the Litigator Social Security delays matter less than if Dee Lon Dusk gets Disconsin rural voters Social Security Numbers in exchange for \$100 RAWSEP Audience Now who is conspiracy theorizing Larry the Litigator? Dee Lon Dusk is only asking for name address email address phone number to put on his list in exchange for \$100

Larry the Litigator There you have it Disconsin rural voters! And I single you out in a biased way because we are almost out of time and I am trying to get to some kind of point during this conversation The urban elite from Dadison have set us straight and the cold hard facts are that Republican led inflation and a looming recession because of it are what you get to the tune \$3000 lost each year for the next four years Quite a bargain for selling out for \$100 You are in the big leagues now Disconsin rural voters All eyes are on you Instead of being gullible ski away from the Dee Lon Dusk door knockers when they call and I assure you they will call with their \$100 waving in front of your eyes like a hypnotizing tick tock watch that lulls you into thinking losing \$3000 a year is a fine price to pay for returning to the man centric 1950s except it will not be prosperous like the 1950s

RAWSEP Audience Think of Jean Claude Killy! Ski away from the Dee Lon Dusk door knockers with all your speed and skill! Larry the Litigator It is a pity that because of global warming there is no snow in Disconsin now And really there are no mountains in Disconsin so rural voters are stuck snow shoeing or cross country skiing away from the Dee Lon Dusk door knockers if they are lucky enough to have snow on the ground

RAWSEP Audience Well the door knockers will arrive in defective Deslas anyway so the cars will break down so Dee Lon Dusk Door Knockers will have to pursue on foot I do not see Dee Lon Dusk Door Knockers doing that In my mind I see them aimlessly jumping two inches off the ground exposing two inches of their flabby abs as a threat when they are not wielding manly running chainsaws in the direction of potential voters! Wait that could be persuasive! Darn!

Larry the Litigator I leave you RAWSEP internet audience with that indelible image! Remember Jean Claude Killy and ski for your lives! Keep Heat Pumps running in your Chalets tonight Disconsinites!
