

Episode 57DFT March 25 2025 Talk Show R E S P E C T Find out what it means to me

Larry the Litigator Here we are again in the clean well lighted studio of Residents Against Wood Smoke Emission Particulates RAWSEPresidents or simply RAWSEP How are you feeling RAWSEP Audience? RAWSEP Audience Okay considering

Larry the Litigator We have establishing that under those protective and symbolic Ski Goggles you are not wearing scary eye makeup at all As we enter the RAWSEP studio we briefly at the door drop our defenses and our Ski Goggles and have revealed that we are not scary human beings bent on destruction of the American Way and not wearing long wearing Maybelline makeup around the eyes in order to look ghoulish or frightening

RAWSEP Audience We are also not carrying Desla bashing clubs either contrary to what we were accused of in the detention facility we all sat in for hours earlier today We were merely carrying umbrellas against the unseasonal Disconsin rain today In normal Disconsin weather for late March we should be carrying snow shovels which would be pretty awkward weapons to use against a Desla Anyway we were unjustly accused on no evidence except wearing Ski Goggles which we do really use to protect our eyes from the PM2.5 from indoor residential wood burning Anyway this is obviously Desla dirty tricks learned from Watergate dirty trickers like the real best buddy of Dump named Dodger Stone Dump accuses people verbally of what he Dump is actually doing such as lying and fabricating Watergate era Dirty Tricks meant sending flunkies out to do actual burglaries of offices that they could blame on unwitting Democrats in the 1970s

Larry the Litigator Better to be an unwitting Democrat caught up in Republican lies than a lawbreaker hey folks?

RAWSEP Audience I dunno I feel very unwitting right now

Larry the Litigator So what do you think is the purpose of Republican lies RAWSEP Audience?

RAWSEP Audience What a perfect web we weave when first we practice to deceive? That is not my favorite poem I will have to study it I can think of better poems I do not want to study the Russian war of aggression against Ukraine no more I want Ukraine to just flat out win it and win their land back and protect the rest of Europe against Russian aggression I want a US president who is on the right side of history and the right side of democracy and that is just not happening right now

Larry the Litigator How ungrammatical of you Disconsin RAWSEP Audience Snap out of it We all want everyone to be straightforward with us but we really only do that here in this RAWSEP studio where no one comes in with weapons and we all breathe clean air because indoor residential wood burning is banned in the RAWSEP studio and we make plans to extend the practice of looking out for our fellow man and plan indoor residential wood burning bans around the world in our own little way

RAWSEP Audience Sort of like publishing wedding bans I RAWSEP Audience take you Larry the Litigator as my surrogate to pass lawful laws against indoor residential wood burning Under the power vested in you as a Litigator you promise to do that right Larry?

Larry the Litigator To the best of my ability and lawfully and all that stuff No violence You know Violence is the purview of the Dirty Tricks Department AKA the art of the Dump deal

RAWSEP Audience We are the Disconsin delegation of the RAWSEP Audience I personally have not seen a Desla idling at a stop sign here in this fair capital city of Dadison so there are no Deslas to mutilate here anyway that I can see Okay we have electric vehicle charging stations in Dadison where there have been protests but those Desla protests are happening in states all over the United States We all hope that the electric vehicles charging in our fair city are not Deslas anyway because the now cheaper alternatives to Desla are better overall RAWSEP Interjection In 2025 several electric vehicles offer more affordable entry points than Desla including the Nissan Leaf Hyundai Kona Electric and Ford Mustang Mach E Select trim with the Nissan Leaf being the most budget friendly Back to the conversation

RAWSEP Audience Do you think people who have painstakingly written the stories of their unhappy firings at the hands of DOGE on the palms of their hands to read at a Town Hall for their Representatives would blur that ink by clutching an umbrella to whack a Desla? No no a thousand times no!

Larry the Litigator So how do you spend your free time RAWSEP Audience representing Disconsin?

RAWSEP Audience We point out the defects of Dee Lon Dusk and his actions while not pointing out the pointless pointiness of Desla vehicles themselves We file motions in court and lo and behold those lawful actions are gaining us some traction over time People are being rehired by the federal government who were unlawfully fired That is something right?

Larry the Litigator The unlawful firings should not be happening in the first place

RAWSEP Audience We persuade anybody who owns a Desla to get rid of it by reselling it I suppose although Deslas are a piece of junk in my estimation RAWSEP Audience But most importantly in Town Halls and other public gatherings we ask questions or pontificate as efficiently as possible about the economic costs of the Dump administration ideas that are shockingly being implemented in executive actions that are unchecked by the courts right now This unstable and costly environment we now live in is dangerous to our health and well being We the American people are not being treated with R E S P E C T by the rich few who are now heading our government Larry the Litigator Economic costs! Now there is a topic that will not put anyone to sleep!

RAWSEP Audience We can even talk about economic costs concerning the Disconsin Supreme Court Race! Now this is getting interesting right? Larry the Litigator Ho hum I need a diversion like wondering just who is setting a vehicle any vehicle on fire I need a picture of a flaming car to lead a news broadcast I am snoozing here RAWSEP Audience Did you know that Dee Lon Dusk is not an engineer himself? He is not the inventor of the electric vehicle! He is a rich kid with a silver spoon in his mouth who is merely an investor He is just as dumb as he seems when he is pontificating that Social Security is a Ponzi scheme By saying Ponzi Scheme he is lying by saying Social Security is an unlawful scam Just so Dee Lon Dusk can be a kleptomaniac Dee Lon Dusk is saying he can take the money everyone pays into Social Security over their working lives and throw it away by repurposing that Social Security money paid in by hard working Americans to pay for tax breaks for the rich! Dee Lon Dusk and Dump want to create a government kleptocracy of the rich to take from the poor and you know take from the middle class too

Larry the Litigator Kleptocracy is a pretty big word and Klepto is a hard concept to grasp

RAWSEP Audience R E S P E C T find out what it means to me! Klepto K L E P T O klepto is what DOGE and Dump mean to me! Give a little respect I mean a lot of respect to hard working Americans who just want to have a retirement on Social Security that allows them to eat and have a home and live you know

Larry the Litigator I think you are selling yourself short RAWSEP Audience Federal workers should also be treated with respect until they are of retirement age and Federal workers should not be the fired without cause Ranks of Federal Workers should not be decimated leaving the Federal Government without manpower skills and education in the areas of science and medicine needed to find cures for cancer and other diseases and to design new vaccines to deal with new public health threats now and in the future

RAWSEP Audience Will those Federal worker firings without cause cost us anything? Dollar wise?

Larry the Litigator Well you know hospital costs funeral costs and medication costs

RAWSEP Audience I have heard that the \$100 that Dee Lon Dusk door knockers are offering to Disconsin voters in exchange for their name address email address and phone number as well as undying fealty to Dump as he leads us into a recession will be an exchange of Dee Lon Dusk \$100 cash at the door in exchange for \$3000 in increased costs for goods and services for each voter because of tariffs for the next 4 years Is that true? Larry the Litigator You can bet your campaign slogan on it The Dee Lon Dusk giveaway of \$100 to Disconsin voters is a scam Exchange of \$100 for \$12000 of voter costs overall for tariffs of \$3000 per year voter costs over 4 years is a scam dollarwise Do not fall for it Disconsin Supreme Court voters! Now that is a pocketbook issue!

Larry the Litigator I think we have uncovered the Klepto scam of Dee Lon Dusk! Go forth RAWSEP Audience and investigate this further! RAWSEP Audience We will be too busy getting out the Liberal vote
