

## **Weird Eli and the Yankee Refrain Setlist**

- 1 Do you really want to club me?
- 2 Someone to rub! Out!
- 3 Go ask Axon! He says it is uninvestable!
- 4 Uninvestable in many ways!
- 5 Stop dragging my hot wheels around!
- 6 Sunshine on my solar panels makes me happy!
- 7 Telephone Line! To all rural areas!
- 8 Another one battery does not rust!

### **1 Do you really want to club me? Lyrics**

Do you really want to club me?  
Do you really want to make me cry?  
Here in this club do not club me!  
I paid a lot to get past the door!

### **2 Someone to rub! Out! Lyrics**

Do you want somebody to rub out?  
Do you need somebody to rub out?  
You better find somebody to rub out!  
Just not me not me not me!

### **3 Go ask Axon! He says it is uninvestable! Lyrics**

Go ask Axon! when he is sitting at the table!  
At the table the guy next to you could be 10 feet tall!  
He hands you a note that is really small!  
The men at the table get up and tell you what to do!  
But you have already done it and they still tell you what to do!  
They say forget it! The oil extraction is uninvestable!  
I guess they know!

### **4 Uninvestable in many ways! Lyrics**

Uninvestable with legal and commercial hurdles!  
And forevermore it is a long term risk!  
significant changes to oil laws investment security and the legal system  
are prerequisites for any return to large scale operations!  
I say it is uninvestable!  
Your stupid ideas make you unforgettable!  
Uninvestable! Unforgettable! In many ways!

### **5 Stop dragging my hot wheels around! Lyrics**

A Self Driving Taxi stops traffic  
When electricity shuts down  
Stop dragging Stop dragging Stop dragging  
My hot wheels around!

### **7 Sunshine on my solar panels makes me happy! Lyrics**

Sunshine on my solar panels makes me happy  
Sunshine on my solar panels makes me cry  
Sunshine on my solar panels looks so lovely  
Except when wood smoke obscures them from on high!  
If I had a heat pump that I could give you  
I would give to you a heat pump just like I have today  
If I had a song that I could sing for you  
I would sing a song to make you feel this way!  
If I had a tale that I could tell you  
I would tell a tale sure to make you change  
If I had a wish which I could wish for you  
I would make a wish for clean air down this lane!  
Wood smoke obscuring solar panels makes me unhappy  
Wood smoke in my eyes can make me cry  
Wood smoke on the water makes it muddy  
Sunshine without wood smoke makes solar panel energy fly!

### **7 Telephone Line! To all rural areas! Lyrics**

Hello! How are you?  
Have you been alright through all those lonely and lonely and lonely and lonely!  
Lonely rural nights?  
I would tell you everything if you would only pick up that telephone!  
Hey! How are you feeling?  
Are you still the same? You must realize the things Democrats planned! For extension of a smart  
grid to all rural areas! we almost did!  
It was all for real! Not a dream!  
I just cannot believe the Democrat plans have all faded out of view!  
Blue days black nights doo wah doo lang!  
I look into the sky! The solar panels and wind farms you need are not going to happen fast  
enough!  
And I wonder why! The little things Democrats planned are not coming true!  
Oh telephone line give me some time!  
I am living in twilight!  
Oh telephone line give me some time!  
I am living in twilight!

Okay so no one is answering!  
Well can you just let it ring a little longer and longer and longer? Oh!  
I will just sit tight in shadows of the night!  
Let it ring forevermore! Oh whoa!  
Blue days black nights doo wah doo lang!  
Oh telephone line give me some time!  
I am living in twilight!

### **8 Another one battery does not rust! Lyrics**

Are you ready? Hey! Are you ready for this?  
Are you hanging on the edge of your seat?  
Out of the doorway the battery stands!  
Even with rain pouring on the grandstand!  
Another one battery does not rust!  
And another one no rust and another one no rust!  
Another one yes no rust!  
How do you think we are going to get long term energy storage?  
With rusting batteries?  
You did the research and used rare earth materials!  
And kicked off a revolution in long term battery storage!  
Are you happy are you satisfied?  
How long can you store energy in the battery?  
Long term long term this battery powers the grid!  
I am going to get one too!  
To store energy from wind and solar power!  
Even when the wind does not blow!  
And the sun does not shine!  
Another house gets energy from the grid!  
Extending to all rural areas!  
There are plenty of ways that you can hurt a man!  
And bring him to the ground!  
You can beat him you can cheat him you can treat him bad!  
And leave him when he is down yeah!  
But I am ready with long term battery storage yes I am ready for you!  
I am standing on my own two feet!  
Out of the doorway the autocracy rips!  
But Repeating to the sound of the beat!  
Another one battery does not rust!  
Another one battery does not rust!  
And another one battery and another one battery!  
Another one battery does not rust!
