Dump is a Projector and Dondi is a Protector
Dump taught her how to tantrum like a toddler
She is an expert at insult and a marauder
Who lords it over weak rules following lawyers
Bring up the Dow and all lawyers will bow down
No questions with answers requiring only yes or no!
Protect the very pedophiles she railed against
For most the last decade with angst
Before the file was placed on her desk
And then unredacted for Congress at last
Does she lie on reflex like Dump?
Or will she be ultimately stumped?
With the next lie to told on a pile too high
Even with coaching from the fat guy
The truth will not hold her back
Except there is a line of victims behind her back
