

Web 57DHYAFZZFLWEVA May 2 2026 The Twelfth of Heaven W SAG Gala this May

The Twelfth of Heaven W SAG Gala, this May.
You ask how many days from now, must I explain?
Tis ten days from now when Heat Pumps reign again
You ask how much they cut the pollution? I'll tell you true
On the Twelfth of Heaven this May they will still be heating you
Emitting no particulates even close to the machine.
Unlike indoor residential wood burning which screams
Feed me until I smoke you out with paper reams!
In front of the Heat Pump, hold me close or let me free!
You will still be warmed or cooled whatever the weather may be.
Melt my heart by warming with a Heat Pump instead of dirty
Heat from indoor residential wood burning in the country or city!

Ten days from now on the Twelfth of Heaven this May, Ice will melt!
Until then the forecaster says we are in an extraordinary polar event!
The April Tulips and Bleeding Hearts forget to bloom!
The early spring clover and wood violets lose their perfume!
The Twelfth of Heaven W SAG Gala this May is in a long, long, time!
But we have a Heat Pump and we synchronize our rhymes.
Like good songwriters we use different time signatures and signs!
Our May signs are Taurus, before the Gala, and later Gemini.
We sing of Love and Happiness and Flowers and Rhymes.
We really mean we love each other, because we are kind.
