Avoid Heaven Sent Hail Damage! The Big Four!

Do not burn Wood! Bury Electrical Lines! Use Balcony Solar!

Use clean energy sources such as Wind, Solar and Geothermal!

Use the literal earth of Mother Earth to shield your energy from

The hail and high winds that are now part of Climate flotsam

And jetsam of the storms that increase along with Climate Change

It can be a personal project to get Balcony Solar to rearrange

Your life without the tens of thousands dollar cost of big Panels

For Solar which also require fees to your Utility to Install.

Now you can power your computer modem and refrigerator freezer

With only Balcony Solar. So in a power outage from sources other,

You can still see your favorite comedian if only in reruns after May.

Still indulge in frozen yogurt and defrost healthy food

When you may be housebound without transport to good

Sources of the freshest unless you have a garden going this year!

When the sun shines bright, the heavens bring cheer!

Come to think of it, the next Big Four Solutions

To Avoid Heaven sent Hail Damage, an evolution

To Home Gardens for Vegetables and Fruits

Like Watermelons and for your eyes, Carrots,

Bring inside your smaller Solar Panels during Hailstorms

Or cover your smaller Solar Panels with Padded Forms

And finally, to get some shuteye, also a Padded Car Cover

Which you can simply remove when the Hailstorm is over.
