The Twelfth of Heaven W SAG Gala, this Twelfth of July.
At the Sugar Castle we will see our ideas translated! We will try!
You ask how many days from now, must I explain?
Tis six days from now when Heat Pumps reign again
You ask how much they cut the pollution? I'll tell you true
On the Twelfth of Heaven this July they will air condition you
Emitting no particulates even close to the machine.
Unlike indoor residential wood burning which screams
Feed me until I smoke you out with paper reams!
In front of the Heat Pump, hold me close or let me free!
You will still be warmed or cooled whatever the weather may be.
Melt my heart by warming with a Heat Pump instead of dirty
Heat from indoor residential wood burning in the country or city!

Five days from now on the Twelfth of Heaven this July, hail will melt!
Until then the forecaster says we are in an extraordinary hail event!
The July Tiger Lilies and Trumpet Lilies forget to bloom!
The deep summer Bergamot and Hydrangea lose their perfume!
The Twelfth of Heaven W SAG Gala this July is in a long, long, time!
But we have a Heat Pump and we synchronize our rhymes.
Like good songwriters we use different time signatures and signs!
Our July signs are Leo, after the Gala, and before, Cancer time.
We sing of Love and Happiness and Flowers and Rhymes.
We really mean we love each other, because we are kind.
